

VPAT™

Voluntary Product Accessibility Template®

Version 1.3

Date: January 2017

Name of Product: Cormant-CS 9.0

Contact for more Information (name/phone/email): Paul Goodison, +1 805 747 4178, sales@cormant.biz

Summary Table

VPAT™

Voluntary Product Accessibility Template®

Criteria	Supporting Features	Remarks and explanations
Section 1194.21 Software Applications and Operating Systems	Applicable.	Desktop client supported with minor exceptions.
Section 1194.22 Web-based Internet Information and Applications	Applicable.	Web interface supported with a minor exception.
Section 1194.23 Telecommunications Products		Cormant-CS is not considered a Telecommunications product as defined in 1194.23
Section 1194.24 Video and Multi-media Products		Cormant-CS is not considered a video or Multi-Media product as defined in 1194.24
Section 1194.25 Self-Contained, Closed Products		Cormant-CS is not considered a Sel-Contained or Closed Product as defined in 1194.25
Section 1194.26 Desktop and Portable Computers		Cormant-CS is not considered a Computer as defined in 1194.26
Section 1194.31 Functional	Applicable.	Both Platforms supported with exception.

Performance Criteria		
Section 1194.41 Information, Documentation and Support	Applicable.	All platforms fully supported.

Section 1194.21 Software Applications and Operating Systems – Detail

VPAT™

Voluntary Product Accessibility Template®

Criteria	Supporting Features	Remarks and explanations
(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.	Supported with minor exceptions.	<p>Alt key provides access to all menus.</p> <p>Tab key provides access to other items in the application.</p> <p>Arrow keys provide tree navigation.</p> <p>Enter selects an item</p> <p>Some tab navigation is not in the order expected and the arrow key is required to override the navigation.</p>
(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to	Supported.	Cormant-CS does not disrupt or disable any features.

<p>industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.</p>		
<p>(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.</p>	<p>Supported</p>	<p>All movement shows current focus.</p>
<p>(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.</p>	<p>Supported with minor exceptions</p>	<p>All menu items are text.</p> <p>All tool bar image options provide a text alternative.</p> <p>Check boxes provide an empty/filled indication of state.</p> <p>Some data entry filed only provide a textual label to the left and not a hover over label.</p>
<p>(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent</p>	<p>Supported</p>	<p>They are consistent.</p>

throughout an application's performance.		
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Supported.	Cormant-CS provides textual content via the operating system.
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Supported.	
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Not Applicable.	Cormant-CS does not display any animation.
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Not Applicable.	No color coding is used in this area of Cormant-CS.
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Supported.	Supported in that any operating system changes made are not overridden.
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Not Applicable.	No flashing or blinking is used.

<p>(I) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.</p>	<p>Supported.</p>	<p>Forms are standard Windows forms and work with tab navigation from top to bottom.</p>

**Section 1194.22 Web-based Internet information and applications –
 Detail
 VPAT™
 Voluntary Product Accessibility Template®**

Criteria	Supporting Features	Remarks and explanations
<p>(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).</p>	<p>Supported.</p>	<p>Vast majority of elements are text, graphical elements provide alt text.</p>
<p>(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.</p>	<p>Not Applicable.</p>	<p>No Multi-media in product.</p>
<p>(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.</p>	<p>Supported.</p>	<p>Where color coding is used, it is always a secondary method to text data.</p>

<p>(d) Documents shall be organized so they are readable without requiring an associated style sheet.</p>	<p>Supported.</p>	<p>They are organized in a logical order and no style sheet is required to read them.</p>
<p>(e) Redundant text links shall be provided for each active region of a server-side image map.</p>	<p>Not Applicable.</p>	
<p>(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.</p>	<p>Supported</p>	<p>Client Side image maps are used.</p>
<p>(g) Row and column headers shall be identified for data tables.</p>	<p>Supported.</p>	<p>Column headers are provided in all cases and row labels when applicable.</p>
<p>(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.</p>	<p>Not Applicable.</p>	
<p>(i) Frames shall be titled with text that facilitates frame identification and navigation</p>	<p>Not Applicable.</p>	
<p>(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.</p>	<p>Not Applicable.</p>	<p>No element in Cormant-CS uses any form of flickering.</p>

<p>(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.</p>	<p>Not Applicable.</p>	<p>Compliance is supported within the web pages as described above.</p>
<p>(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.</p>	<p>Supported.</p>	
<p>(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).</p>	<p>Not Applicable.</p>	<p>Cormant-CS is fully HTML 5 and requires no plugins with any recent browser.</p>
<p>(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access</p>	<p>Supported.</p>	<p>All field are accessible via tab key. Some common functions are available via Ctrl and key sequence (e.g. cut, copy, paste)</p>

the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.		
(o) A method shall be provided that permits users to skip repetitive navigation links.	Partially Supported.	Depending on user profile some elements can be skipped.
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable.	No timed responses exist in Cormant-CS.

Note to 1194.22: The Board interprets paragraphs (a) through (k) of this section as consistent with the following priority 1 Checkpoints of the Web Content Accessibility Guidelines 1.0 (WCAG 1.0) (May 5 1999) published by the Web Accessibility Initiative of the World Wide Web Consortium: Paragraph (a) - 1.1, (b) - 1.4, (c) - 2.1, (d) - 6.1, (e) - 1.2, (f) - 9.1, (g) - 5.1, (h) - 5.2, (i) - 12.1, (j) - 7.1, (k) - 11.4.

Section 1194.31 Functional Performance Criteria – Detail

VPAT™

Voluntary Product Accessibility Template®

Criteria	Supporting Features	Remarks and explanations
(a) At least one mode of operation and information retrieval that does	Supported with exceptions.	Most elements of the screen can be read by screen readers.

<p>not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.</p>		
<p>(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.</p>	<p>Supported.</p>	<p>Fully support web browser zooming via responsive interface that preserves all information on screen. Screen magnifiers will also work.</p>
<p>(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided</p>	<p>Not Applicable.</p>	<p>No Audio in product.</p>
<p>(d) Where audio information is important for the use of a product, at least one mode of operation and</p>	<p>Not Applicable.</p>	

information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.		
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Not Applicable.	
(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.	Supported.	Where a 3D plan is provided alternative buttons are provided for non motor control zoom and rotation.
