

SAN LUIS OBISPO, CA, USA, February 1, 2021 — BGIS and Cormant announced today that they have completed a transaction under which BGIS has acquired Cormant, a leading global Data Center (DCIM) and IT Infrastructure Management software provider. Cormant's Chief Executive Officer, Paul Goodison, and his team will remain in place and work within BGIS to support and aid BGIS's increasing strategic objectives to provide our customers with enabling technology to help them run and manage their Data Center and Critical Environments infrastructure around the world.

Since 2001, Cormant has developed and delivered industry leading "DCIM and Beyond" software and success to customers worldwide. Clients who choose Cormant enjoy a successful, cost-effective, easy-to-use, and scalable Infrastructure Management solution. Cormant has an unwavering focus on customer success with customers from 2003 who still actively use Cormant solutions today. Cormant's global footprint includes a wide-range of critical environments, including data centers, hospitals, manufacturing, and military environments.

"BGIS is a great fit for Cormant. I've been impressed with their commitment to delivering solutions to customers operating in the global data center and IT infrastructure management environments", said Paul Goodison, Cormant Founder, and CEO. "BGIS has shown a strong, long-term commitment to their customers, something that is at the very heart of Cormant's success. I am looking forward to joining forces with BGIS and see them as an ideal home for Cormant's customers, people, and technology."

BGIS is on a mission to create a global, technically led, pure play Integrated Facility Management (IFM) business, and present our customers with the most comprehensive suite of services in the industry. "Enabling our services and our customer's businesses with industry leading software and technologies is a foundational element for BGIS," said Mark Marquis, President, BGIS US and Europe. "We are excited to have Paul and his team join BGIS and partner with us to expand our suite of offerings and capabilities to support and enable our Critical Environments and Infrastructure customers."

About Cormant

Cormant has been an expert at IT infrastructure management software for the data center (DCIM) and beyond since 2001. Cormant's unprecedented ease-of-use has delivered DCIM success to hundreds of customers. Cormant is the leading DCIM solution provider for global enterprise data centers, co-location sites, IoT, and campus infrastructure. Cormant's solutions are sold globally with customers and partners on six continents encompassing all industries.

About BGIS

BGIS is a global leader in the provision of facility management, project delivery, energy & sustainability, asset management, workplace advisory, and real estate services.
